## What people say about their Life Between Lives® Hypnotherapy with Jennifer:

"Jennifer is a true healer who perfectly facilitated a process where I was able to connect in a vast way to my deepest self. She was caring, attentive, sensitive, nurturing, compassionate and immediately put me at ease due to her trustworthy and accepting nature. She was everything that I could ask for in a hypnotherapist and more. By the end of our session, I felt that she had guided me through a most profound journey of self-discovery and recollection and am deeply grateful for her guidance." --**Margaret Doner**

---

"Thank you so much for the amazing work you are doing with the Life Between Lives sessions. My two experiences were enlightening and fascinating and they took me places I had never been before. I have been integrating the information and using it to empower myself as I proceed on my spiritual and emotional journey for re-integration. I believe that the more we know about ourselves throughout time and space the greater sense of empowerment we feel. Thank you for the great work you are doing; I know that everyone could benefit powerfully from experiencing sessions with you. With much gratitude." --G P. Red Hook, NY

---

"I was pleased with the regression: As I am very well versed in this type of work having done many past life regressions. This regression was different because it focused more on this life, and what the purpose of this life is rather than past lives. I also got very clear information about speaking my truth which seems to be a major theme for this life time. This shift in awareness supporting my conviction to stand my ground will bring me to a higher evolutionary level and open up a channel for future generations of women in my family line to own their own power. This is a very big challenge for me but Jennifer was able to help me see the big picture and confirm for me that I was on the right path." --S.A., Monroe, NY

## What people say about Certification Training with Jennifer:

"Thank you for this amazing training. After completing it, I feel not only competent and capable of using hypnosis as a technique for healing but also that I have a solid foundation on which to build my own practice. At all times, you support and encourage our personal expression and to "make it our own" but also demonstrate how to hold space for the client's own inner wisdom to emerge. I have since taken other trainings in hypnosis and been impressed by the depth and breadth of your course in comparison. You bring many other complimentary therapeutic arts and practices to your teaching and I have benefitted from it all. Thank you."--Audrey Gilbert

"In a word, "Wow!" Working with Jennifer is truly delightful and empowering. She is a natural at this work combining knowledge, talent, and intuition. She balances listening to your needs and sharing examples and resources into a comprehensive and enjoyable session. Her series is crafted with consideration for those in attendance. Her skill and love of this work shines through her body and soul and it's clear that she's honored to share that. She's informative and fun. It's not all structure and time constraints. She has her own style with anecdotes and presence that invite laughter (all emotions really), inspiration, direct action, and peaceful fluidity.

Over the course of a few months, I thought this course would only help inspire me and my creativity (and it has). Through the support of the community created, and the work I explored throughout the course, I found a higher calling to actually use my certification and practice. Even though I entered this journey seeking something, I was assured in my belief that it was

not in the doing or the having, but in the presence and quality of being that matters. Jennifer artfully guided me through the subtleties of recalibration. She is someone worth learning from. It's never too late to start, to reconnect, and to find the space and the facilitator that is special for you. If you haven't yet, go meet Jennifer." --**Leah Romano, Norwich, VT- USA**

"I believe Jennifer approaches her class in a more meditative and non-linear way than an individual will find with another instructor. This course allows one to explore areas beyond what may be found in a more conventional class. I found her approach expansive, meditative, imaginative, and relevant, all these aspects are offered with extraordinary kindness, comfort, ease, harmony, and exceptionally genuine love. If you are deciding about whose hypnosis class to join, this is the class. You will gain all and more that you are expecting and looking forward to achieving". --**Victory Henin- New Orleans**

"The hypnosis certification with Jennifer Axinn-Weiss was fantastic. Her background in Jungian sand play, art therapy, past life regression and somatic experiencing provide a rich context for the work. And her kind, supportive way provided all the encouragement needed for success. I cannot imagine taking this training from anyone else." --**Billie K. Delaware County, NY**
